Recording Studio Experience!

Our Recording Studio Experience...

comes in many shapes and sizes. Ranging from the traditional pop star experience singing to backings to musicians' recording days such as the piano experience, from hen party recording studio experiences to music production experiences for budding engineers, or the singer songwriter and songwriter experience or guitar experience.

How much time will I get?

A day in our professional studio still only costs £250, with five hours to create your own personal CD. There is also a three hour mini-experience available at £160, and now also a four hour experience. Or two consecutive days at £450. If you are in doubt about how much time you need, please give us a call to chat things through.

Who is it meant for?

All recording studio experiences are absolutely suitable for complete beginners in a recording studio, although any previous experience is a bonus! In general, our Recording Studio Experiences are tailored to the individual. All, however, share the same general features - click here for info. We offer singing, and musician-based recording experiences, songwriter and music production sessions, childrens' parties, hen parties and corporate days.

Why are our experiences unique ?

As distinct from an hour- long "booth" recording experience, or something more impersonal, the experiences carried out at our studio, whether pop star or other genres, are acknowledged to be amongst the most genuine products on the market. Dealing directly with a recording studio that has been offering all types of experiences for eleven years now, you can be assured that your day will be a unique event, tailored just for your needs, the best of all worlds.

As musicians, we derive great pleasure and enjoyment from working with others on whatever musical projects they wish, and this is why we feel able to devote such attention to detail in the provision of our recording services. Please check our lists for the type of recording day you are looking for, and contact us with your request if you don't find it.

How do I book or buy a voucher?

You can book from our bookings page. If you have a date, you can call us or email to check availability. If you want to give a present, you may buy a voucher for 3, 4, 5 or 10 hours. Vouchers are valid for a year after purchase and are entirely flexible in terms of use. You may buy a songwriter experience and change it for a singing to backings experience, or vice versa.

Studio Experience Day!

Your Recording Studio Experience Day

Your brilliant recording day begins when you arrive at the studio, and meet the team. A brief chat follows during which we introduce ourselves and find out something about you and your singing preferences. You may wish to have a cup of tea or something else, although by that stage, you'll realise that recording in this environment is a very relaxed event, and the agenda will be set largely by you.

Then into the studio, where any preparatory work has already been done.

The next few hours are spent developing the music of your choice - singing, instrumentals, whatever you had planned to do. You also get to take part in the production if you wish, to help add effects, and generally to bring the whole recording together.

During the last half an hour you can relax whilst the disc is mastered to your personal taste.

You then leave with a fantastic product to listen to - and hopefully a CD player in the car! Or opt for an MP3.
