#### **Songwriting Course**

The Beehouse Recording Studio offers a unique one-to-one Songwriting Course, or Songwriter Workshop. A very inspiring day, run to professional standards, we are happy to work in most genres and styles. This is generally a five hour course although it can be extended. During the Songwriting Course, the customer takes a song from an idea or a set of lyrics through to a final product, learning on the way how a song is put together. If you wish, real instruments may be recorded. You can add real bass, drums, guitar, piano, keyboards, strings, all to your personal taste, with the skilled help of our production specialist, who will also play in lines for you if required. The commercial quality results are then available on a CD at the end of the day. We work with individuals with all kinds of musical backgrounds - some arrive ready to put down an entire song with lyrics, melody, harmonies and an ability to record the vocals and instrumentation. Some arrive with a tune in their head and very little else. As well as the CD, you may also have a video made of your day, if you wish, for an additional charge.

At the Beehouse we are accustomed to working with professionals and amateurs alike, and so if you decide that you would like to promote your finished track and make it available on the internet for purchase, we can also help you with these aspects. A fabulous gift for singers, musicians, or creatives. Ideally located for Shropshire, Powys, Midlands, Birmingham, Cheshire, and Wales.

## **Music Production Course**

Ideally located for Shropshire, Powys, Midlands, Birmingham, Cheshire, Wales, the Beehouse offers a unique professional Music Production Workshop for those who would like to put a track or tracks together in a professional studio. We can either work on existing tracks you have created elsewhere, or build a whole new track, and can offer help with instrumentation, arranging, recording, synthesized additions, effects, mixing and mastering. The Music Production Course, sometimes called the Studio Engineering Course, or Music Production Workshop is five hours of fabulous one-to-one tuition in lively and informal environment.

Shaped so that you can derive maximum benefit, no matter what your previous experience or standard, the course is flexible, and can encompass recording and production techniques, a Cubase experience or Cubase workshop for those with no or some knowledge, and the development of a variety of sound engineering and music skills. If you wish, real instruments may be recorded. You can add real bass, drums, guitar, piano, keyboards, strings, all to your personal taste, with the skilled help of our production specialist, who will also play in lines for you if required. Alternatively, the day may focus on computer generated production, the use of samples, loops and synthesised sounds.

# **Studio Voucher**

The Beehouse Recording Studio Experience Voucher is for singers or musicians of all ages and experience who'd like the experience of recording either cover versions or their own music. A fun day with brilliant commercial quality results on a CD to take home. Every voucher may be used for any equal value type of experience on our website, for music recording, songwriting, singing to backings. All vouchers may be upgraded on the day if you wish. The voucher is valid for a year.

The standard voucher offers five hours in a professional studio environment either to sing to backings or to have a go at recording your own music with a recording producer at a professional recording studio. We also have 3 hr, 4 hr and 10 hr vouchers available.

Ideally located for Shropshire, Powys, Midlands, Birmingham, Cheshire, Wales, the recording studio experience session, which is suitable for complete beginners in a recording studio and professional or semi-professional performers alike, is a lot of fun and highly enjoyable, with lots of support from our friendly studio staff. The whole recording atmosphere is geared to relaxation and enjoyment, and the resulting CD is usually highly impressive, reflecting the array of experience, production and recording skills provided.

We offer both singing and musician type experiences in this time frame. Please check out our reviews blog at <a href="http://the-beehouse.blogspot.co.uk">http://the-beehouse.blogspot.co.uk</a>

#### **Lane and Lane Music Production**

Lane and Lane work either in a team or separately, Jane evolving the harmony structure and creating the most usable music framework, and Phil drawing on his expertise to add effective instrumentation and drumming patterns, effects etc.

#### Genres:

Our experience ranges from neo-classical structures through the whole evolution of jazz and pop to dubstep and beyond, and we provide mixes and remixes.

#### **Songwriting for Artists:**

We can then either write specifically for singers, or make various suggestions from our range of available tracks. When a singer opts to sing a song written by another person through Lane and Lane, we provide a distribution package through Noochoon, our downloads site.

#### **Co-writing:**

When a singer opts to co-write a song with Lane and Lane, or production is so extensive that a co-writing agreement is required, we provide a distribution package through Noochoon, our downloads site.

## Soundtracks:

Soundtracks are written to specific guidelines and we are able to produce quality input to pre-agreed deadlines. Our soundtracks tend to be whole pieces of music, cut in various ways to assist in the natural flow of your video and to set to scene and emotions of the video.

## Pop Video Production from Megaviz

Music and Pop Videos form an important part of our output. These often include a studio component and a location component. Noochoon is our record label, and our pop videos are mostly available on Noochoon Youtube Channel

Our pop videos are carefully storyboarded to fit with current conventions and the present pop market, and we are able to bring to this equation not only the necessary skills to produce the video, but a creative input combined with a knowledge of the music industry.

Catering for both the professional and the informal markets, videos start at £100 for a simple studio version of your best track recorded. Videos can be uploaded to Youtube and marketed. We also provide non-music-services with background music and other studio-based features.

#### MP3 Downloads from Noochoon

Noochoon is the Beehouse's own downloads site where we make available tracks recorded at the Beehouse for public sampling and purchase. So after a rewarding professional session or experience at the studio, you can upload any original recordings with samples to Noochoon for sale.

Noochoon also offers recording contracts to suitable artists looking to work alongside us in promoting themselves and their talents. So acting in a dual capacity as a promotional record label and a download sales site, Noochoon is well-placed to provide quick and economical promotional solutions to a wide variety of artists.

# Hire a Pro DJ for your themed party or event

MantraSound is a well established and excellently reviewed UK-wide pro DJ agency, providing many contracts on a regular basis for both private and corporate customers looking not just to book a DJ or book a disco, but for reliable professional DJs for their events who will provide music within the framework the customer's tastes and own playlist. Our DJs are able to offer themed parties and so will be of particular interest if you are a great fan of a particular era or styles, be it sixties, seventies, eighties, an Elvis event or a dubstep party.

We can arrange a DJ for a wedding, party or a corporate event, and a wide range of other specific functions, with a large number of consistently superb disco providers on our books. We can therefore provide you with a pro DJ in the UK, wherever you are.

The majority of our DJs are mobile DJs. We also regularly provide disco karaoke and karaoke party DJs, rock DJs and video DJs

Our DJs come with top reviews and excellence in music and communications, online booking and a personal playlist, DJ contract and emergency back-up, PLI, PAT and high quality sound equipment.
